The Problem: €500K+ Lost Annually

Blue-collar workforce instability is a silent hemorrhage

30-45%

Annual Turnover

€5,000-€15,000 per exit in recruitment, training, and lost productivity

40-60%

Burnout Rate

Shift workers experience 3.4x higher sick leave risk

3-8%

EAP Utilization

Traditional phone-based EAP fails blue-collar workers

The gap: $93B wellbeing market targets desk workers. Construction crews, factory workers, and hospitality staff have been **forgotten**.

Our Solution: 4 Pillars

Proactive, data-driven early warning system

WellMind

Daily pulse surveys, MBI/UWES assessments, NLP sentiment, gamification

Preventive

CarePath

EAP case management, provider network, crisis protocol, anonymous option

Reactive

Housing Index

Accommodation quality → wellbeing correlation. **NO COMPETITOR HAS THIS**

UNIQUE

Predictive

Overtime→burnout, sick leave triggers, conflict tracking, turnover risk

AI-Powered

6 automated triggers detect problems and initiate support — **no employee falls through the cracks**

Market: €93 Billion by 2028

$93B
Total Addressable Market (Global, 2028)

€18-22B
Serviceable Available Market (Europe)

€500M+
Serviceable Obtainable Market (CEE Blue-Collar)

Growth Drivers

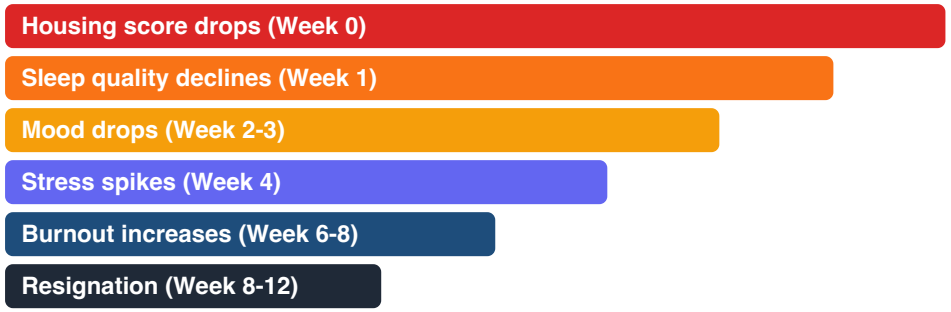
- CAGR ~7% (Grand View Research)
- Post-COVID wellbeing awareness surge
- EU regulations (AI Act, ISO 45003)
- Blue-collar segment **dramatically underserved**
- 2.1B blue-collar workers, <5% have digital wellbeing tools

Our niche: Blue-collar workers with employer-provided housing — an uncontested market segment

🏠 Housing Stability Index — Our Moat

The only platform connecting accommodation quality to workforce wellbeing

Predictive Cascade (Evidence-Based)



Sources: Evans et al. 2003, WHO 2018, ILO 2020

Academic Evidence

- Housing dissatisfaction → **1.8x job dissatisfaction**
- Poor housing → **2x turnover risk**
- Adequate accommodation → **25-30% fewer accidents**
- 1 SD improvement → **0.3 SD job satisfaction gain**
