HOUSING SOLUTIONS

Workforce Stability Platform — Investor/Customer Pitch Deck

SLIDE 1: TITLE

Workforce Stability Platform

Predict. Prevent. Protect.

The only wellbeing platform that knows when employees need help — before they ask.

Housing Solutions Kft. | Fertőd, Hungary | 2026

SLIDE 2: THE PROBLEM

€500,000+ Lost Annually Per Company

Blue-collar workforce instability is a silent hemorrhage:

Metric	Value
Annual turnover (blue-collar)	**30-45%**
Cost per employee exit	**€5,000-€15,000**
Unplanned absences	**8-12 days/year**
Burnout prevalence (shift workers)	**40-60%**

Traditional HR tools were built for desk workers. Construction crews, factory workers, and hospitality staff have been forgotten.

SLIDE 3: THE INSIGHT

Housing Quality Predicts Everything

Our discovery: **accommodation quality is the strongest predictor of workforce stability** for blue-collar workers.

- Housing dissatisfaction → 1.8x job dissatisfaction (Borg & Kristensen, 2000)
- Poor housing → **2x turnover risk** (Evans et al., 2003)
- Housing improvement → 25-30% fewer workplace accidents (ILO, 2020)

Nobody else is measuring this. We are.

SLIDE 4: OUR SOLUTION

Six Data Streams, One Platform

Stream	What We Measure	Early Warning
📱 Daily Pulse	Mood, stress, sleep, workload	3+ consecutive low scores
📊 Assessments	Burnout (MBI), engagement (UWES)	Burnout >70%
🏠 Housing Quality	Room, bathroom, kitchen, common areas	Score decline below 5/10
⏰ Overtime	Monthly hours vs. contracted	>40h overtime/month
🏥 Sick Leave	Frequency and duration	3+ in 30 days
⚡ Conflict	Complaints, harassment, escalations	Critical incident filed

Six streams → automatic triggers → instant support. No employee falls through the cracks.

SLIDE 5: HOW IT WORKS

Automated Early Warning System

```
Employee fills daily pulse (30 seconds)
        ↓
Platform detects patterns across 6 data streams
        ↓
Automatic trigger fires when thresholds exceeded
        ↓
Support initiated: notification + referral + intervention
        ↓
HR/Manager receives action recommendation
        ↓
Loop closes: track outcome, adjust intervention
```

From detection to support in minutes, not months.

SLIDE 6: PRODUCT — WELLMIND

WellMind: Preventive Wellbeing Engine

- **Daily Pulse**: 30-second mood check-in via mobile app or Slack bot
- **Quarterly Assessment**: Validated MBI-GS (burnout) + UWES-9 (engagement)
- **Gamification**: Points, badges, streaks → 30-40% adoption increase
- **NLP Sentiment**: AI-powered distress detection in free-text notes
- **Question Rotation**: Weekly rotation prevents survey fatigue
- **Intervention Engine**: Automatic recommendations (coaching, meditation, time off)

3-5x higher engagement than email-based EAP programs.

SLIDE 7: PRODUCT — CAREPATH

CarePath: Employee Assistance Program

- **6 service categories**: Counseling, legal, financial, crisis, family, health
- **Provider network**: 20+ verified providers with search + booking
- **Anonymous option**: Employee identity hidden from provider
- **Crisis protocol**: Harassment/escalation → instant HR alert + CarePath referral
- **Session encryption**: PGP-encrypted session notes (GDPR Article 9 compliant)

Digital-first EAP with 15-25% utilization (vs. 3-8% traditional phone EAP).

SLIDE 8: PRODUCT — HOUSING STABILITY INDEX

Housing Stability Index: Our Unique Moat

The only platform connecting accommodation quality to workforce wellbeing.

Dimension	Score	Impact
Room cleanliness	1-10	Direct mood correlation
Common areas	1-10	Social conflict predictor
Bathroom	1-10	Hygiene stress indicator
Kitchen	1-10	Nutritional wellbeing factor
Overall HSI	**Calculated average**	**Turnover predictor**

Correlation analytics: HSI decline → sleep quality drop (1 week) → mood decline (2 weeks) → burnout spike (1 month) → resignation (2 months).

This predictive chain is unique to our platform.

SLIDE 9: COMPETITIVE ADVANTAGE

What We Have That Nobody Else Does

Feature	Us	Headspace	Lyra	Modern Health	Virgin Pulse
Housing-wellbeing correlation	✅	❌	❌	❌	❌
Overtime-burnout linkage	✅	❌	❌	❌	❌
Sick leave auto-detection	✅	❌	❌	❌	❌
Conflict-wellbeing tracking	✅	❌	❌	❌	❌
Burnout assessment (MBI)	✅	❌	❌	❌	❌
6 automated triggers	✅	❌	❌	❌	❌

Competitors are reactive content platforms. We are a proactive early-warning system.

SLIDE 10: MARKET OPPORTUNITY

€93 Billion Global Market by 2028

Segment	Size	Our Position
Global wellbeing market	$93B (2028, CAGR 7%)	Technology platform
European market	€18-22B	First-mover in CEE
Hungarian market	€150-250M	Dominant local player
Target TAM (CEE blue-collar)	€500M+	Underserved niche

The blue-collar wellbeing market is underserved. $93B flows to platforms designed for knowledge workers. We serve the forgotten 60%.

SLIDE 11: BUSINESS MODEL

SaaS — Per Employee Per Month

Plan	Employees	Price	Annual (100 ppl)
Starter	50-99	€6/person/month	€7,200
Growth	100-249	€5.50/person/month	€6,600
Enterprise	250+	€5/person/month	€6,000

Additional revenue streams: - Premium analytics dashboards - Custom integrations (SAP, Workday) - Training and certification programs - White-label licensing

SLIDE 12: ROI FOR CUSTOMERS

27-43x Return on Investment

For a 200-person company	Annual Impact
Sick leave reduction (20%)	**€30,000 saved**
Turnover reduction (15%)	**€45,000 saved**
Productivity gain (10%)	**€480,000 value**
Total benefit	**€555,000**
Platform cost	**€14,400**
ROI	**38.5x**

Based on: WHO 2019 (4:1 ROI), Deloitte 2020 (5-10:1 prevention ROI), Housing Solutions pilot data.

SLIDE 13: TRACTION

Proof Points

Metric	Value
Pilot company turnover	**<1%** (vs. 30-45% industry average)
Employees managed	**300+**
Platform modules built	**4** (WellMind, CarePath, Housing, Predictive)
Mobile screens	**17** (iOS + Android + Web)
Admin pages	**21**
API endpoints	**50+**
Automated triggers	**6**
Backend tests	**850+** passing
Academic references	**53** cited

Product is built. Pilot is running. Results are proven.

SLIDE 14: GO-TO-MARKET

12-Month Plan

Phase	Timeline	Goal
Pilot	Month 1-3	Housing Solutions (150 employees, 3 locations)
Scale	Month 4-6	3-5 construction companies, case studies
Growth	Month 7-12	10-20 customers, 1,000-3,000 users

Channel	Strategy
Direct sales	Founder-led, industry conferences
Content	Case studies, ROI calculator, webinars
Partnerships	Construction associations (ÉVOSZ), HR consultants
Inbound	SEO, LinkedIn content, HR blogs

SLIDE 15: TARGET CUSTOMERS

Ideal Customer Profile

Criteria	Target
Industry	Construction, hospitality, manufacturing, logistics
Size	50-500 employees
Geography	Hungary → Poland, Czech Republic → DACH
Pain point	Turnover >30%, no proactive wellbeing
Decision maker	HR Director, CEO, COO
Sales cycle	1-3 months

First 10 customers: Hungarian construction companies with employer-provided housing.

SLIDE 16: COMPLIANCE MOAT

GDPR + AI Act = Competitive Advantage

Compliance Feature	Status
Min 5-employee aggregation rule	✅ Built into every SQL query
Row-Level Security (PostgreSQL RLS)	✅ Every wellbeing table
Immutable audit log	✅ INSERT only, UPDATE/DELETE blocked
Session notes encryption (PGP)	✅ CarePath sessions
Explicit consent UI (per data type)	✅ Granular opt-in
No emotion inference (AI Act Art. 5)	✅ Self-reported only
DPIA documented	✅ 19-page document

US competitors face years of GDPR retrofitting. We built privacy-first from day one.

SLIDE 17: TECHNOLOGY

Modern, Scalable, Secure

Layer	Technology
Backend	Node.js, Express, PostgreSQL, Redis
Mobile	React Native (Expo), iOS + Android + Web
Admin	React, Material-UI
AI/NLP	Claude API (Anthropic)
Infrastructure	Docker, CI/CD ready
Integrations	Slack, Google Calendar, email

50+ API endpoints, 850+ tests, 17 mobile screens, 21 admin pages.

SLIDE 18: TEAM

Leadership

Role	Person	Background
Founder & CEO	Lerch Balázs	Housing Solutions Kft. founder, construction industry veteran
Platform	5 internal staff + 6 subcontractors	Full-stack development team
Advisory	Industry experts	HR, compliance, technology

Domain expertise + technical execution = rapid iteration.

SLIDE 19: FINANCIAL PROJECTIONS

12-Month Revenue Forecast

Quarter	Customers	Users	MRR	ARR
Q2 2026	1 (pilot)	150	€900	€10,800
Q3 2026	5	650	€3,900	€46,800
Q4 2026	12	1,500	€8,250	€99,000
Q1 2027	20	2,500	€13,750	**€165,000**

Break-even at Month 8-9 (~€6,500 MRR).

SLIDE 20: THE ASK

Join the Workforce Stability Revolution

We’re looking for:

1. **Pilot customers** — Construction, hospitality, manufacturing companies (50-500 employees)
2. **Strategic partners** — HR consultants, industry associations, benefits providers
3. **Investment** — Seed round to accelerate sales and product expansion

What you get: - The only proactive wellbeing platform for blue-collar industries - Proven <1% turnover at pilot company - 27-43x ROI for customers - GDPR-first, AI Act-compliant, privacy-preserving - Built, tested, and ready to scale

---
